

Presentation of the Forecasts for the Propensity for Peace or War (±P)

© International Peace Project 2000, 4 August 2023. English charity reg. no. 1101966. All rights reserved.

Name of Conflict Area: North Korea (NK) v South Korea (SK)  
 Dates of current phase of conflict: 2010 to present

Dates of analysis: 2020  
 [Step 7 in full spec]

±P Overall grade: -P

**Narrative:**  
 [to be manually inputted. A strict protocol to be developed for this.]

*Propensity for war between North and South Korea persists:*  
 - despite a rough conventional military balance between them  
 - due to a widening economic gap; and  
 - isolation of N. Korea from multilateral institutions.  
**High risk of N. Korean collapse resulting in nuclear detonations**
